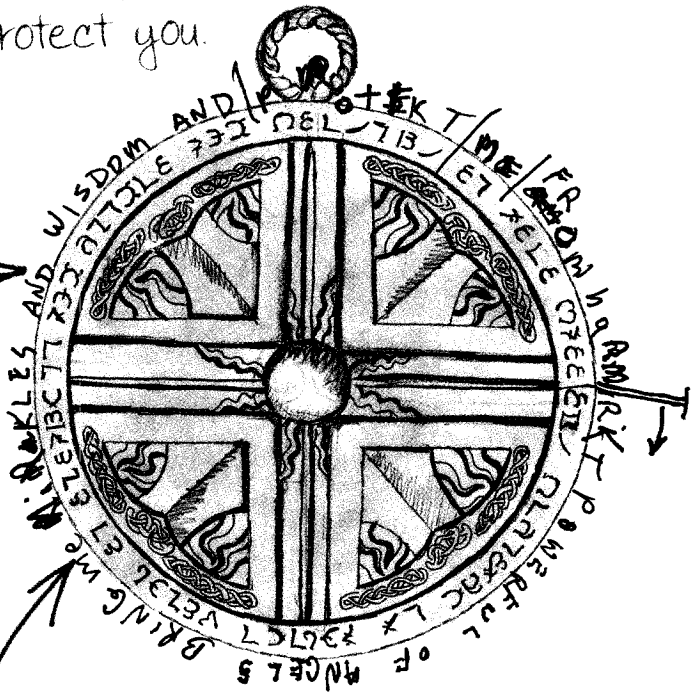
Keep this medallion of the Archangel Michael close. It will both attract positive energy to you and protect you.

A secret angelic prayer that evokes the medallion's power is inscribed around its perimeter. It is written in Enochian, the language of angels. No one but you will be able to use it. I will send you the prayer with your medallion. Just recite the prayer three times.



Your medallion is plated in special "Enochian" silver, as silver is one of the most magically powerful elements on Earth, and has been used since ancient times to attract wealth, health and love.

<u>The Medallion's Power and how it will help you</u>

First, the Archangel Michael is the leader of all the angels and is in charge of protection, courage, strength, truth, integrity and above all, <u>miracles</u>. God created Archangel Michael to protect us physically, emotionally, materially and psychically.

Archangel Michael's flaming swords, symbols of righteousness, which he uses to protect us from all forms of negative entities, are represented on the medallion in four quadrants. These quadrants represent the points on a compass. This was done to protect the owner of the medallion from all harm from any direction.

When your medallion's power is evoked, you may see sparkles, feel tingles and/or get an incredible feeling of security and warmth. You are to use the secret Enochian prayer I will send you to evoke the medallion's power and to call on Archangel Michael's power if you find yourself under attack of any kind, or if you feel you lack commitment, motivation or dedication to your goals or dreams.

In addition, you should call on the medallion's amazing powers if you need luck, courage, direction, energy, vitality or if you need money or a miracle.

The sun in the center represents the power of the Archangel Michael to lead the souls of the faithful into the Eternal Light of good fortune. Please keep it with you always.
